**18th Edition
Compliant**

WHY PULSA?

ELIMINATE DUST

Dust on-site is one of the hot topics for the industry.

Pulsa mitigates drilling and practically eliminates dust.

MINIMISE H.A.V

Hand arm vibration is a serious health and safety risk. PULSA users do not even come close to worrying about daily exposure levels.

USER COMFORT

Expertly balanced and designed ergonomically, minimising wrist strain.

Lightweight design eliminates fatigue; low actuation force to depress the tool and fire.

E-lift attachment for fastening at height. E-lift reduces the demand for expensive towers and platforms.

WHY D-LINE?

HIGHLY RATED

D-Line manufacture innovative cable management products designed to solve everyday electrical applications with simple and reliable solutions. SPIT can now offer elements of the D-Line Safe-D range that work excellently with the Pulsa system for the fastest, cleanest install, working 8 - 12 times faster.

18TH EDITION

The UK's 18th Edition Wiring Regulations confirmed that all UK cable installations after 1 January 2019 must be supported to prevent risk of collapse in fire.

SPIT has collaborated with D-Line to provide you with a user-friendly and versatile solution for securing cable installations, in compliance with the new regulations.

USE WITH PULSA 800E

Using the SPIT Pulsa 800E with these fire-rated clips provides users with the quickest & most cost-effective ways to secure surface cabling, with peace-of-mind assured.

PULSA RANGE

PULSA 800E

One of the market leading fast and efficient M&E direct fastening systems.

Code: 018350

FLAT MAGNETIC PIN GUIDE

For use with the Palsa 800E to hold metal 18th edition compliant accessories in place.

Code: 014642

SAFE-D U-CLIPS

U-Clips are U-shaped cable management clips that can be easily folded to safely secure cables.

The combination of the pliable gauge steel & rounded corner features, when used with SPIT HC6 Flush Head nails, makes Safe-D U-Clips the quickest and make it easy to install.

- Thumb friendly, easy fold side-tabs
- Supplied as U-shape
- >1200°C melting point
- Fully safety tested clip to satisfy requirements of BS5839 pt 1 & BS7671

SAFE-D F-CLIPS

F-Clips are fire-rated flexible cable supports that are supplied in flat form, and can be folded in seconds to make a variety of shapes to most effectively secure cable installations.

The flat-form is also ideal for the Pulsa 800E which can be first-fixed, before sides are inwardly folded to effectively wrap around cables & easiest to install.

- Space efficient and pocket friendly
- Easy folding to required shape, to suit space & cable volume
- >1200°C melting point
- Clip 40 and 50 locking tabs can be return-folded for extra security

INSTALLATION

SAFE-D CLIP SELECTION

SAFE-D F-CLIPS

These pocket friendly clips are perfect for large volumes of cabling and allow the user to fold into a large variety of shapes.

SAFE-D U-CLIPS

Thumb friendly, folding tabs allow for quick installation and are popular for ceiling voids or PVC trunkings

PIN SELECTION

HC6 FH 17MM OR 22MM

17mm and 22m Flush Head pins ensure the cleanest fixing, with the collation deliberately breaking away once fixed.

Selection is dependent on the hardness of the concrete - start with a 22mm and if necessary, in very tough concrete, reduce pin length to 17mm.

Easily recognisable, the Flush Head pins have a white collation, in contrast to other pin options

SHAPES YOU CAN FORM

SAFE-D F-CLIPS

STEPS 1-2-3

SAFE-D U-CLIPS

1 > POSITION U-CLIP

Position U-Clip onto Pulsa 800E mag nose.

2 > FIRE U-CLIP

Shot fire onto substrate.

3 > SECURE CLIP

Make sure clip is secure and fold tabs once cables are inserted.

SAFE-D F-CLIPS

1 > POSITION F-CLIP

Position F-Clip onto Pulsa 800E mag nose.

2 > FIRE U-CLIP

Shot fire onto substrate.

3 > SECURE CLIP

Make sure clip is secure and easily fold clip to desired shape once cables are inserted.
